

Assistant Professor Evolution/Ecology

Canisius College has a tenure-track opening for an Assistant Professor in Evolution/Ecology. The candidate should be able to teach general biology and upper level courses and associated labs in evolution, ecology and their area of specialty. The specific area of expertise is open, but the ideal candidate will specialize in aquatic ecology or entomology. The candidate should complement, not duplicate, the existing expertise which includes: behavioral neuroscience/animal behavior, immunology, physiology, endocrinology, cellular neurobiology, developmental biology, vertebrate zoology (ornithology), microbiology, genetics, and plant biochemistry/molecular biology. The development of a research program involving undergraduates is expected. The successful candidate will be expected to seek external funding to support his/her scholarship. Ideal candidate would have postdoctoral experience (teaching or research).

Letters of application, including vitae, transcripts, teaching philosophy, plan of proposed research, and contact information for 3 references, should be received by 8 December 2009. Electronic submission is strongly encouraged (please put "Evol/Ecol Search" in the subject line of any emails); PDF format is preferred. Address application/correspondence to: Dr. Susan Aronica, Chair, Biology Department, Canisius College, 2001 Main St., Buffalo, N.Y. 14208, biojobs@canisius.edu. For more information: Telephone: (716) 888-2550, aronicas@canisius.edu, or visit www.canisius.edu/biology.

Canisius College is an independent, co-educational, medium sized institution of higher education conducted in the Catholic and Jesuit tradition. Minority candidates strongly encouraged to apply. Canisius College is an Equal Opportunity/Affirmative Action Employer.
