

# Two Senior Scientists Awarded Fellowships

## Zwolinski, Wiedenbeck Given Posts At Purdue, Notre Dame

Climaxing outstanding college careers, Bruno J. Zwolinski and Marcellus M. Wiedenbeck, senior members of the Strohaver Science Club, have received, in recognition for their talent, fellowships to major universities. Mr. Zwolinski has been appointed to a graduate assistant post at Purdue University, while Notre Dame University has conferred a similar honor upon Mr. Wiedenbeck.

### Specialize In Studies

A graduate of East High School, Mr. Zwolinski since his entrance into Canisius College in the fall of 1937, has been interested in biochemistry and physical chemistry. He is looking forward to working under Dr. H. B. Haas, Chairman of the Purdue Chemistry Department, who has been carrying on research on the chlorination of hydrocarbons at elevated temperatures.

Mr. Wiedenbeck, who has received national recognition for the cosmic ray counter which he constructed, was graduated from Depew High School. In his post of graduate assistant at Notre Dame, he plans to specialize in nuclear physics under Professor Arthur Haas. At the Museum of Science last fall, Mr. Wiedenbeck read a paper on his counter before the Buffalo Science Congress.

### Coffin Clubbers

Both recipients of the awards have been prominent for the past four years in extra-curricular fields at Canisius. A member of the Coffin Club, Chemistry Club, president of the Strohaver Science Club, a member of the Student Council for the past two years and secretary of the organization in his Senior year, Mr. Zwolinski has always been an excellent leader and popular among his fellow students.

A diligent worker in almost all the school's science organizations, Mr. Wiedenbeck received the "Forgotten Man" trophy presented by the Sodality at this year's Junior Promenade. Like Mr. Zwolinski he was inducted into the Coffin Club, honorary society of Canisius College.

Both men have received listing in "Who's Who Among Students in a American College and Universities."
